

Faculty Position in Mechanical and Aerospace Engineering

Cornell University
Ithaca, New York

The Sibley School of Mechanical and Aerospace Engineering at Cornell University invites applications for tenure-track faculty positions for persons with interests in systems engineering, with particular emphasis on either complex energy or aerospace systems. Applicants must have a demonstrated record of success in, or evidence of outstanding potential for, building a vigorous, independent program in teaching and research. We anticipate filling the positions at the Assistant Professor level, but applications at other levels will be considered; salary and rank are commensurate with qualifications and experience.

Interested candidates should send a Curriculum Vita and the names of four professional references to:

Dr. Al George, Chair
Systems Engineering Search Committee
100 Rhodes Hall, M&AE
Cornell University
Ithaca, New York 14853-7501

Cornell University is an affirmative action/equal opportunity employer; qualified women and minority candidates are particularly encouraged to apply. Applications will be accepted until the position is filled; all applications received by April 30, 2004 will be considered.
