

Fall 2020 Guide for MEAM freshmen

Welcome to MEAM! Here are some recommendations for your first semester in college.

Required courses for MEAM majors:

★ MEAM 110 Intro to Mechanics and MEAM 147 Intro to Mechanics Lab

These courses teach the fundamentals of mechanics from an engineering point of view. Physics 150 also fulfills these requirements.

What are students saying about MEAM 110 and MEAM 147?

"It was nice to study physics with problems that were related to engineering."

AP Credit: A score of 5 on AP Physics C: Mechanics fulfills both the MEAM 110 and MEAM 147 requirements (it will appear as PHYS 150 on your transcript).

A Levels: An A* or A grade on the Physics exam fulfills both the MEAM 110 and MEAM 147 requirements.

International Baccalaureate: A score of 7 or 6 fulfills both the MEAM 110 and MEAM 147 requirements.

Students with AP, A Level, or IB credit may still elect to take MEAM 110 and MEAM 147 to strengthen their understanding of mechanics, get an introduction to MATLAB, and meet other MEAM students. *Doing so forfeits your exam credit, as you cannot count equivalent credits toward your degree.*

★ MATH 104 Calculus I

[section 6 is strongly recommended; it is tailored to SEAS students] or
MATH 114 Calculus II

A firm foundation in math is very important – please don't skip ahead to MATH 114 unless are confident in your MATH 104 skill set.

AP Credit: A score of 5 on the AP Calculus BC exam fulfills the Math 104 requirement.

Math Department Website: <https://www.math.upenn.edu/undergraduate/advice-new-students>

★ CHEM 101 General Chemistry I

[Sections 4 & 5 are recommended; they are tailored to SEAS students] or

★ BIOL 121 Intro to Biology: The Molecular Biology of Life

If choosing Chemistry, we suggest taking it in the fall semester since there are many sections offered. However, if it doesn't fit in your schedule, it's fine to take it in the spring. BIOL 121 is only offered in the fall semester.

AP Credit: A score of 5 on the exam fulfills the Chem 101 requirement (it will appear as EAS 091 on your transcript).

Please note: The Chemistry department offers placement exams during the first week of the fall semester. See more details on the Chemistry department website: <https://www.chem.upenn.edu/content/general-chemistry-placement-exam>

What else should I take?

Take an elective in the College to add a bit of variety to your schedule, such as one of the following:

Social Science & Humanities: https://ugrad.seas.upenn.edu/student-handbook/courses-requirements/social-sciences-and-humanities-breadth/
Technology, Business & Society: https://ugrad.seas.upenn.edu/student-handbook/courses-requirements/technology-in-business-and-society-courses/
Writing Requirement: https://ugrad.seas.upenn.edu/student-handbook/courses-requirements/writing-requirement/

If you still have room in your schedule, consider...

★ ENGR 105 Introduction to Scientific Computing

This course fulfills the MEAM programming requirement. It teaches programming using MATLAB. It is also offered in the spring. If you have AP credit for CIS 110, you do not need to take this course because your MEAM programming requirement is satisfied; however, you may want to take it anyway since the use of MATLAB is so deeply integrated into the MEAM curriculum.

What are students saying about ENGR 105?

“ENGR 105 was useful because it helped me learn the syntax. I used that knowledge later on. Solving problems in a different language is really useful to learn.”

“Extremely useful. We used Matlab every semester since we took this class.”

★ MEAM 101 Introduction to Mechanical Design

A project-based elective that covers the basics of the design process, from the initial idea, all the way to fabrication. Students learn computer-aided design (SolidWorks) and rapid prototyping (laser cutter and 3D printing). It is also offered in the spring. This course is a required prerequisite for the popular course MEAM 201 Machine Design and Manufacturing.

**Please note: SEAS seniors are not permitted to register for this course. We encourage you to take this course early in your academic career.*

What are students saying about MEAM 101?

“Great class, the projects are fun and interesting, and valuable skills are learned, especially in SolidWorks. Great for any engineering major, not just MEAM.”

“Since this course was based primarily on the learning and use of SolidWorks, I felt that I was truly learning something that would be useful to me in the future.”

Try to maintain a balanced course load of about 4.5 or 5 CUs each semester.

Support

The first semester of college can be tough. Even those who sailed through high school can find themselves overwhelmed at times. Don't be afraid to reach out for support!!

★MEAM Undergraduate Coordinator:

Lauren Kemp

laurem@seas.upenn.edu

Tel: 215-898-4825

Hours: 9am-5pm, Monday-Friday

Lauren will be working remotely for the fall 2020 semester.

If you have a question and don't know whom to ask, send Lauren an email and she will help you!

★MEAM Associate Chair for Undergraduate Affairs:

Prof. Paulo Arratia

parratia@seas.upenn.edu

★MEAM faculty advisor: www.me.upenn.edu/about-people/index.php

The name and e-mail address of your faculty advisor were sent to you via email and are available on Penn InTouch.

★Counseling and Psychological Services

www.vpul.upenn.edu/caps/

3624 Market Street, 1st Floor

In-Office Hours: : 9:30am – 1:30pm, Monday-Friday

Visits will be conducted primarily through telehealth.

Tel: 215-898-7021 (available 24/7)

★SEAS Office of Diversity and Inclusion

<https://diversity.seas.upenn.edu/>

Staff may be working remotely through the fall 2020 semester.

Working Hours: 9am - 5pm, Monday – Friday

Tel: 215-898-7084

★SEAS Research and Academic Services (RAS)

<https://ras.seas.upenn.edu/staff-advising-information-hours/>

Staff will be working remotely through the fall 2020 semester.

Working Hours: 9am - 5pm, Monday – Friday

Tel: 215-898-7246

★Weingarten Learning Resources Center

<http://www.vpul.upenn.edu/lrc/>

Stouffer Commons, Suite 300

3702 Spruce Street

Staff may be working remotely through the fall 2020 semester.

Working Hours: 9am - 5pm, Monday – Friday

Tel: 215-573-9235

See below for a list of the student organizations that are most closely related to MEAM:

- American Society of Mechanical Engineers (ASME)
- National Society of Black Engineers (NSBE)
- oSTEM
- Penn Aerospace Club
- Penn Electric Racing (PER)
- Society of Asian Scientists & Engineers (SASE)
- Society of Hispanic Professional Engineers (SHPE)
- Society of Women Engineers (SWE)
- Women in MEAM (WiM)
